

Dear Honorable Jeffrey Schmehl,

11-9-2022

I am trying to obtain my ~~email~~ email so I may be able to have contact with my family. I have gone through the channels here in the Administrative Remedy to try to get my email and was still denied. I understand in my Special conditions of Supervision paperwork states I need to be monitored in my computer use. I was denied due to the nature of my offense. I understand all this but if our correspondence on trulincs is monitored I do not understand why I'm still being denied.

Respectfully yours,
